INAUGURAL ADDRESS

OF THE

HON. E. V. BREWSTER,

MAYOR,

TO THE

CITY COUNCIL OF DOVER,

Delivered before the Two Branches in Convention,

JANUARY 1, 1868.

MAYOR'S ADDRESS.

GENTLEMEN OF THE CITY COUNCIL :

By the suffrages of a majority of our fellow-citizens, we are now in some degree invested with authority to manage and control the municipal affairs of the city the coming year. We have, moreover, individually sworn to discharge with sincerity and fidelity the duties incumbent upon us, and on all occasions to protect the interests of those whose servants we are. In entering upon the duties of the office that my fellow-citizens have been pleased to confer upon me, I can only say that while the most grateful acknowledgments for this manifestation of their confidence are due, and thankfully tendered, I realize fully my want of preparatory discipline ; and while, as in duty bound, I shall ever act, so far as within me lies, freely and promptly, and as may appear to best subserve the advantage of the city, still, I shall of necessity trust largely to your own knowledge and sound judgment, and I ask of you the kind indulgence and advice that my inexperience will demand. And here, gentlemen, is to be the very foundation of our success and usefulness. If we walk together with equal steps, each and every one of us striving for the best interests of our townsmen, carefully studying how we may make the burden of the tax payer as light as possible, and yet improve and make our City prosperous and a pleasant home; ever going forward in humble dependence upon that superintending Providence, with out whose aid the counsels of men are brought to nought, we shall receive the approbation of our own consciences—a reward even more valuable than the praise of men. On

your part this service is to be performed without compensation or reward, but I doubt not your interest in our common welfare will secure such a discharge of your important trust as to merit the candid commendation of your constituents.

I shall not discuss in detail or comment at length on the various subjects that will require your deliberations, but briefly and in general terms call your attention to the different departments of the City Government, reserving for some future time such suggestions as circumstances may render necessary. The first matter that should demand your notice among the departments of our City is that of its Finances. From information furnished me by the retiring Executive, I am enabled to speak encouragingly of our present condition. The City Debt has been increased fourteen thousand dollars during the past year. This has not been done solely by the rebuilding of our City Hall. The expenditures for highways have, through exigencies not foreseen, been unusually large, yet it is believed that under the then existing circumstances they will be satisfactory to our citizens. On the valuation of the real and personal estate of the City for 1867, a tax of two per cent. was levied. This did not include any assessment for the Hall, and aside from the payments made on that building, would have been sufficient for State and County demands, as well as all anticipated and ordinary municipal wants. This rate, with so much only added as will be sufficient to meet the interest on the Hall loan, is, I think, quite as high as the property of our city will admit, and should, unless some emergency arises over which you have no control, allow an annual reduction of five per cent. of the debt. The beginning of the present year finds very many branches of industry throughout the country laboring under a severe, though we may hope not exhausting depression. Still the coming year will be one of considerable embarrassment, and it is therefore doubly required that we make the public expense as light as possible.

The condition of the city debt at the present time, is as follows :

Coupon Bonds of April 1, 1860 issue	13,000
“ “ 1864 “	50,000
“ Jan. 1, 1865 “	10,100
Notes payable on demand	173,682
Outstanding claims	2,789

\$249,571

There is due from the Collector

and from the State and County

38,680,34

Cash in treasury

12,196,27

\$50,876,61

This sum will be immediately available, full allowance having been made for all abatements likely to occur on the tax list and will be used during the time intervening between this and the next annual assessment, excepting perhaps the claim of five thousand eight hundred dollars which we make against the state. Our city debt thus stands to-day \$198,694,39.

It will be seen by the report of the Committee on Finance for 1867, that about \$16,000 was paid on the debt during the year 1866, and an assessment and appropriation of ten thousand dollars was made for a similar reduction the year following.

It gives me pleasure to be able to state, that notwithstanding the additional \$8,000 required by Highways, that if we look as we should upon the cost of repairing the City Hall as an independent matter, that with the amount received from the State—about \$3,000—the expectation of still further reducing the debt would not have wholly failed of accomplishment, the departments aside from highways having been kept within the aggregate of their annual appropriations and earnings; thus affording a payment of at least \$5,000.

It has been well said that “mind, not physical force, rules the world.” The dearest of all those rights that the force

of Anglo Saxon character has wrung from feudal tyranny or oppressive duplicity, have been wrought out to proportionate fulness, not by dint of arms, but through the steadfast yet well directed efforts of educated intellect. The importance of promoting early studious habits among our youth cannot be over-estimated. The Superintending Committee report our Public Schools to be in a prosperous condition : let them be carefully nurtured—their teachings will not only raise up suitable persons to occupy in the future our places of trust, but will throw around the growing minds of the rising generation, a safeguard sufficient to resist much of evil in more advanced years.

The Fire Department is in excellent condition, the companies are well filled and a commendable spirit of rivalry prevails. Fortunately we have had few occasions for its service during the past year. The Chief Engineer will soon lay before you a report, to which I must refer you for all information on matters of pressing importance.

The idea of dispensing with the constant services of the Steward in the Steam Engine House and employing the same person, whose duties I understand have always been faithfully performed, for a portion only of the time, or some one whose residence and business would ensure prompt attendance in case of fire, has been proposed, and is worthy of consideration—but upon this point the Chief Engineer may make some suggestions. As the Department is in such good condition, I presume that a moderate appropriation will be sufficient to meet the expenses, the coming year.

The present depression in business has somewhat increased the demand upon the Poor Department. The whole number admitted to the Alms House, including those who remained Dec. 31, 1866, during the past year, is 51 ; sent by the Police Court 1 ; number of inmates at the present time 17. Our pauper expenses may perhaps, in comparison with the expenditures of other cities and towns, be considered moderate. Yet while it is one of our highest duties to deal generously and sympathetically with those whom mis-

fortune has deprived of an independent means of support, still no pains should be spared to bring the expense within as narrow limits as will be consistent with our Christian obligations.

I learn that the Alms House Farm has not, with but one or two exceptional years, been self-supporting. My able predecessor believed that a small expense would be sufficient to fit up the House on the Hale Farm for our City paupers, thereby allowing the sale of the former. Thinking there can be no good reason for compelling the Superintendent of Highways in District No. 1 to live on the Hale Farm, and considering the fact that the County paupers have been removed, I am led to concur in recommending the sale and the necessary preparations made at the Hale Farm, or what might be better, that our Overseer should contract with the County Commissioners for their support. One further remark on this subject and I shall turn it over for your future consideration. Under our present management of this department, the overseer gets only a nominal salary, but as so many of our traders are claimants, it must secure a trade patronage of more or less importance. The present incumbent, so far as my knowledge extends, has for a term of years been a faithful and efficient officer, and if there be blame it must attach to our practice and not to the trader who may occupy the position. But this, with other matters, I refer to you with no uncertainty of mind as to the correctness of your judgment.

Our highways are for the most part in good condition.—The expenditures for the past year were unusually large. This was occasioned by the severe snow storms in winter, the necessity of almost wholly re-building Central and Washington street bridges, the unexpected repairs demanded by our large sewers, and to the advance in the price of labor. With the exception of the cost of completing the last named bridge, I am aware of no extraordinary expenditures that will be required within the limits of the compact parts of the City. Our system of sewerage is very defective. If re-

garded simply as a sanitary measure, the subject presents a strong claim upon your attention. The truss bridges recently built by the City should be covered.

Our streets have been kept in commendable order. In this connection I deem it not amiss to call your attention to the fact, that by a law of our State, any city or town may annually raise and appropriate the sum of two hundred dollars in setting out and properly caring for shade trees. That the presence of well selected and thrifty trees along our principal thoroughfares, each year stretching wide their luxurious heads of foliage, affords a source of justifiable pride and enjoyment, I think no one will deny. These remarks are made rather with the view of attracting your notice to the subject, than of advising any immediate action.

The appropriation for the Cemetery the past year was \$500, receipts \$435. I would advise that at least an equal sum be set apart the present year. A well has been partially dug, which at a comparatively small outlay can be made serviceable and convenient. A new fence has also been built. The money has undoubtedly been judiciously expended, but I think our citizens, particularly those who have committed to this resting place their loved and lost, would prefer to see further improvement take the form of attractiveness; and the grounds are capable of being made exceedingly beautiful and interesting.

Within the past year the City Hall building has been placed under contract, and at the present time is near completion. The retiring government are entitled to much credit for their prompt and energetic course in our unfortunate situation. There has been \$22,718,14 expended since the commencement of the undertaking. The building committee have labored with unceasing activity since the adoption of the plans, and their efforts have been crowned with well merited success. I would earnestly recommend that these gentlemen be retained in their present capacity until the completion of the job they have looked after so carefully.

We have reason to congratulate ourselves that the change

in our Police system has been made permanent, with a stipulated compensation for day and night service. I think experience has shown that a small number of men employed all the time can do the work better than a very much larger force placed on duty in the latter part of the day and evening. And here I desire to say a few words in regard to one particular province of our Police Department. The City Marshal and another equally responsible officer have for several years, in addition to their daily labors, performed the arduous duties of night watchmen. While we have been able to rest secure at home and seek our repose without a disquieting thought of possible injury to our exposed goods and chattels, these hardy and determined men have maintained a constant watchfulness, at all hours of the night passing through our streets and entering every nook and by-way of the City. I have no doubt but that by their well known fearlessness and untiring vigilance the commission of many meditated crimes has been prevented.

And now, gentlemen, let us enter upon the discharge of our duties with feelings of mutual respect and confidence, and setting aside all personal or partizan feeling, act harmoniously together in promoting the best welfare of the people whom we represent.

TREASURER'S ACCOUNTS.

CITY OF DOVER, TREASURERS OFFICE,
December 31, 1867.

TO THE HONORABLE CITY COUNCIL:

GENTLEMEN:—I have the honor herewith to submit my account as Treasurer for the financial year closing Dec. 31, 1867. A brief synopsis of the year is as follows:

E. J. LANE, CITY TREASURER.

Dover, Dec. 26, 1867.

REPORT

OF THE

COMMITTEE ON FINANCE.

CITY OF DOVER, DEC. 31, 1867.

The undersigned, Joint Standing Committee on Finance, of the City Council of said City, certify that in accordance with the provisions of an existing Ordinance, we have this day examined the foregoing account of E. J. Lane, City Treasurer, and find the same to be correctly cast, and each payment properly vouched by a Treasury order, corresponding in amount with the vouchers in the hands of the City Clerk. We have also examined the sources from which the income of the past year has been derived, and are satisfied that he has charged himself with the whole amount paid into the Treasury.

We find, that the total receipts into the Treasury, during the year ending Dec. 31, 1867, including the one thousand four hundred and thirteen dollars and seventy-four cents, (1,413,74) cash balance of last year, have been one hundred and twenty-seven thousand three hundred and forty-nine dollars and forty two cents (127,349,42.)

The total payments during the same time have been one hundred and fifteen thousand one hundred and fifty-three dollars and fifteen cents (115,153,15,) leaving a balance in the Treasury of twelve thousand one hundred and ninety-six dollars and twenty-seven cents.

JOSHUA G. HALL,
A. BICKFORD,

REPORT

OF THE

SUPERINTENDENT OF BURIALS.

To the City Council of the City of Dover :

GENTLEMEN :—I herewith submit an annual report for the
 year ending Dec. 31, 1867.

Whole number of Burials 105

Consumption	26	Old Age	6
Fevers	22	Accidents	6
Palsy	2	Various Diseases	43

All of which is respectfully submitted,

JOHN S. STACKPOLE, SUPT. OF BURIALS.

REPORT

OF THE

CHIEF ENGINEER.

To His Honor the Mayor, and Gentlemen of the City Council:

In accordance with the provisions of the Ordinances establishing the Fire Department, I herewith submit my annual report of the condition of the Fire Department, a list of the Members and Officers, the location of Reservoirs, and number of Fires and Alarms.

The Department has been called out by fires and alarms within the city during the past year, twelve times, out of the city once. The amount of loss by fires will not exceed \$1,500 00.

The several Engine Houses and Apparatus connected with the Department, with few exceptions, are in good condition; part of the Hose now in use is not reliable, having been in use for a long time. I would recommend the purchase of a small quantity annually, believing it to be a better system than larger quantities, at longer periods. I would also recommend the purchase of a Hose Carriage to be drawn by a horse, that would carry 1000 ft hose, and reduce the number of men on each steamer. There has been no change during the year, consequently the organization remains as hertofore, viz : one hundred and four officers and men, two Steam Fire Engines, one Hand Engine, and one Hook and Ladder Carriage, and the necessary apparatus for the same.

BOARD OF ENGINEERS.

RICHARD N. ROSS, Chief Engineer.

EDMUND FREEMAN, First Assistant.

SOLOMON H. FOYE, Second Assistant.

HOOK AND LADDER CO.

House on Central Street.

Andrew J. Roberts, Foreman ; Jasper G. Wallace, Assistant ; E. M. Jones, Clerk ; Elbridge Smith, Steward ; Robert Evans, George Bowers, Joseph A. Wiggin, William H. Hanson, Moses C. Lord, James Carlton, Edward Mulligan, Horace Littlefield, Samuel H. Brownell, Samuel D. Gilman, John Brown, William Drew, Daniel Ford, O. T. Whittier, Thomas Robinson, J. W. Hanson, James Boston, Alonzo Glidden, Charles E. Lord, Charles C. Mills, Ira A. Butterfield.

Schedule of Property.

Carriage built in 1866 by B. F. Preble & Co, carrying 7 ladders, 6 hooks, 6 axes, 4 forks, 4 bars, 4 buckets, 4 lanterns, drag ropes and chains ; 5 spare ladders, and 4 hooks in the house.

HIGHWAY DISTRICTS,

As Established by the City Council, March 20, 1865.

Resolved, I. That Highway Districts No. 1, be extended to the junction of Back River and Durham Roads.

II. That Highway District Nos. "Two and Three," be added to and included in Highway District No. "One."

III. That Highway District No. Twenty-two be extended to the large Elm Tree east of E. Faxon's house.

IV. That so much of Highway District No. 23 as runs from Rebecca Pinkham's gate to the turn of the road near Andrew T. Roberts' dwelling-house, be disannexed from said District No. 23 and annexed to and made part of Highway District No. 14, and so much as runs from the turn of the road near the dwelling-house of Samuel H. Hanson to Nathaniel Carlton's dwelling-house, be disannexed from said District No. 14 and annexed to and made part of Highway District No. 23.

District No 1—Shall embrace all the streets, lanes and alleys in the compact part of the City, also Locust, (formerly High,) street to its head, Arch street, Silver and Washington streets to their junction with Arch, Fourth to its Junction with Tolend Road, Brick street to its junction with Grove, Franklin street to its junction with Chestnut street at the house of Capt. Porter, the Rollins Road to its junction with Fresh Creek Road, the Turnpike to Rollinsford line, Rogers street, the Gulf Road west of Cushing's Mills, Payne street to the culvert beyond Plate's Hill, Mt. Pleasant to cross Road, Cross Road to Neck Road near James Caton's house, Pleasant street to John Meserve's house and to head of Locust.

District No 23—Shall begin at the junction of the roads near the house of A. T. Roberts, thence by Ivory Paul's house to the junction of the roads near Samuel H. Hanson's house, and the cross road to Mrs. Pinkham's.

Particular Notice

TO PERSONS HAVING CLAIMS AGAINST THE CITY.

CITY CLERK'S OFFICE, }
City of Dover, March, 1868. }

Persons having claims against the City should carefully note the name of the individual who orders the articles, or service, and should inquire to what department the charge shall be made.

When there are charges belonging to different departments, separate bills must be made, including only charges belonging to each department. What these are, may be readily seen by reference to the foregoing accounts.

Unless this is done, the claimant will be put to the trouble of making out his account the second time.

The claimants should then have the bill approved by the person who authorized the charge; and then presented to the City Clerk.

All bills thus prepared and delivered to the Clerk, at any time *during* the month, will be laid before the Committee on Accounts at their next meeting, which is on the first Monday of each month, at 3 P. M. Bills not thus prepared and delivered will lay over one month.

JOHN B. STEVENS, JR., *City Clerk*.
